

The Four Queens

after Martin Gardner

Puzzles.COM

Home / Puzzle Playground / Puzzles / Chess 'n' Checkers /

Place four chess queens on a 7x7 chessboard so that all vacant cells are under attack, and no queen attacks another.

A vacant cell (or a queen) is under attack when it is in the same row, column or diagonal with at least one of the queens.

You may print out the board from the last page of this file and use four coins as queens.
